

ONLINE DECOLONIZED CLINICAL  
SUPERVISION GROUP FOR:

# BIPOC CLINICIANS

*Process your experience as a PCA or MFTA working with BIPOC and white clients. Open to all (even licensed) clinicians who want to incorporate an anti-oppressive and decolonized lens in their case presentation, case conceptualization, treatment, and their relationship with their clients.*

- Identity and intersectionality.
- Living in between two (or more) cultures.
- Imposter syndrome, “professionalism”, and white supremacy.
- The toxic effects of feeling like the representative of your culture/community.
- Unlearning white and Western cultural norms in mental health.
- Incorporating culturally appropriate healing practices with clients of your community.
- Cultural considerations while/when working with BIPOC and white clients and alongside white co-workers.
